**Execution of a distributor agreement
regarding trading card game “WIXOSS” in Indonesia**

In Indonesia, our group are currently managing 4 physical card game shops, Facebook account for card game users with 25 thousands followers and the largest community for trading card game (TCG) players.

With the aid of card game community, we executed a distributor agreement for a card game “WIXOSS” released from TOMY COMPANY,LTD. on 26 April 2014 in Japan with TOMY Asia Limited (Hong Kong) who is in charge of manufacture and sales in Asian region.

Our group will distribute the card game “WIXOSS” to our own shops, other card game shops and toy stores nationwide and also host the official card game competitions in Indonesia.

Our group have hosted many TCG experience events in Southeast Asian countries including Vietnam, Thailand and Indonesia and also released localized versions of TCG “Haikyu!!Volley Ball Card Game” in Vietnam and Indonesia. Based on our company’s mission “Fill the world’s time with Waku-Doki”, we will continue to warm up the contents industry through our business activities as well as act as the bridge for content holders and users.
