**Announcement for the First Tractor Contract
of Laos Agricultural Machine Financial Service
- GL Leasing (Lao) Company Limited -**

We would like to announce that GL Leasing (Lao) Company Limited (GLL), our group company which operates finance business in Laos, has won their first contract for a tractor at the KUBOTA agricultural machine dealer today (June 11, 2015).

Dealer name: INXYTHONG Group

Location: Asean road, Ban Nongduang Nuea, Sikhottabong District, Vientiane

GLL was licensed to operate financing business by Bank of Lao PDR on May 14, 2015. They opened their first point of sales at KUBOTA agricultural machine dealer on June 4 and immediately won the first contract for KUBOTA tractor today. Through such progress, GLL has accelerated their fast-paced business expansion.

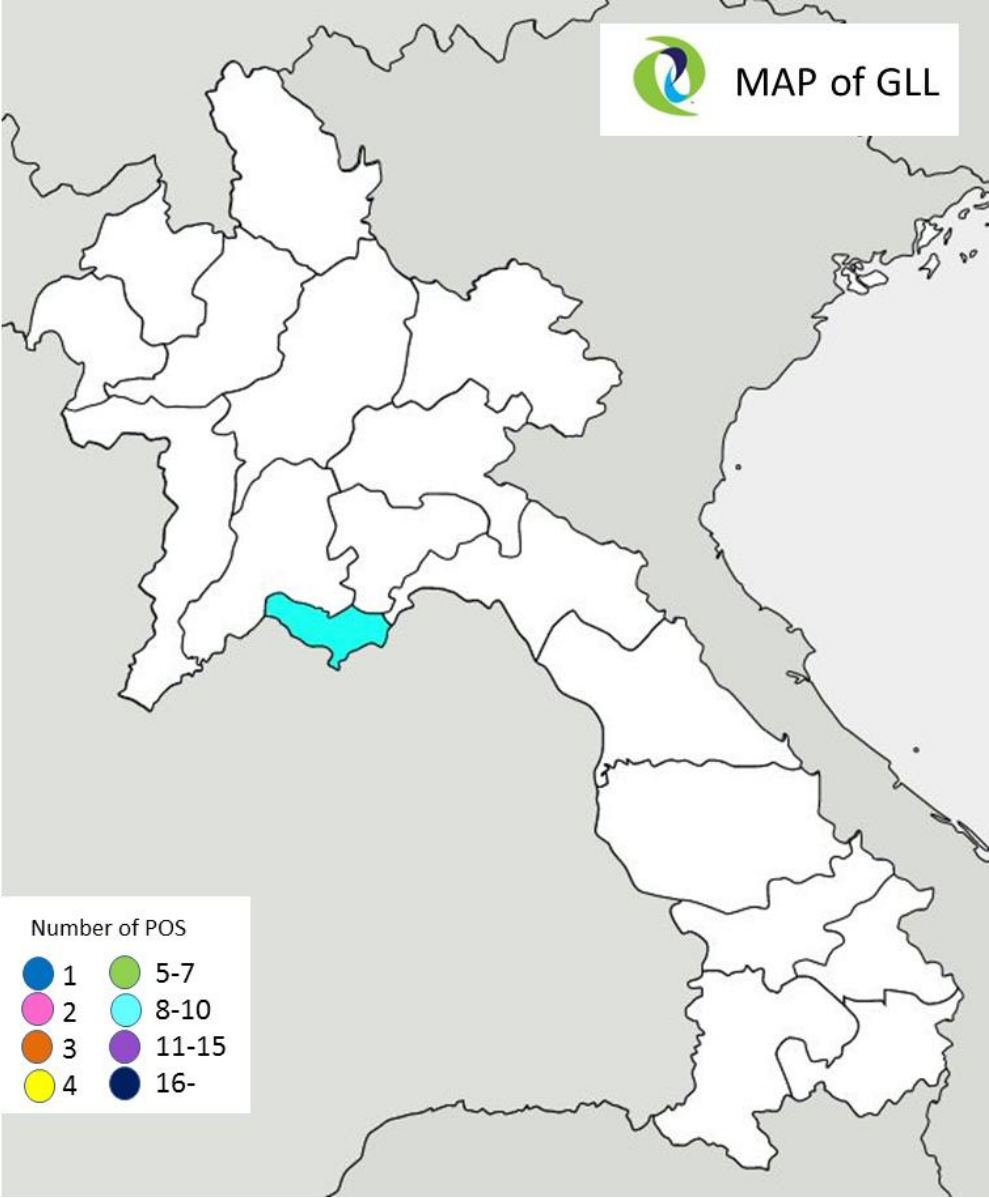

Starting with the first contract, all GLL employees are working vigorously towards opening sales location throughout Laos and winning contracts.

Currently, GLL has proceeded preparation for their first target to open 17 sales locations in total for HONDA and KUBOTA throughout Laos by the end of June. Our finance business has over 30-year history and specialized in motorcycle leasing in Thailand. We were licensed for finance business in Cambodia in 2012 and started agricultural machine leasing. In the second year of business, 2014, Cambodian business practically tuned into profit with extremely high speed for financial business. With these experiences, we have accumulated know-how on international expansion and multi-product implementation. Therefore, we are ready for expanding business in Laos with faster speed than Cambodia.

We will keep up momentum to increase the number of sales office, contribute grass-root economy and improvement of people's life in Laos, and lead to growth of our company.

We will keep informing you our progress. Your interest to us is greatly appreciated.
