Press Release

22 April 2020

Launched product information Facebook page "Support Thailand for Covid-19" to support the economic damage caused by the Covid-19 in Thailand

-Japanese entrepreneurs based in Thailand tied up with a popular Japanese Facebook Page

On April 22, a Facebook page was officially launched to support Thai producers and businesses by helping them find buyers for goods that have been financially damaged by the outbreak of Covid-19 and are either unsellable or have nowhere to go, with free of charge.

The name of the page is "Support Thailand for Covid-19". It has partnered with a Japanese Facebook page of the same name. The original Japanese site was visited by millions of people who wanted to help businesses by buying products, and over 200,000 people registered in the first week of its opening, with many products finding a place to sell.

The original Japanese page mainly deals with agricultural products that are no longer available for sale due to the economic turmoil, as well as food and other items that are no longer available for sale due to cancelled events, and is welcomed by consumers who spend a lot of time at home as it offers discounts of more than 30% over the usual price.

The Thai version is the brainchild of a group of Japanese entrepreneurs living in Thailand, WAOJE Bangkok(<http://waoje.net/db/bangkok/>). And is managed free of charge by Brain Navi (Thailand) Co., Ltd., a Thai content production company to which one of the members of the entrepreneurial group belongs.

Muneo Tashiro of Brain Navi (Thailand) Co., Ltd., the project leader, said, "Similar to Japan, there are many people and companies in Thailand who are struggling financially due to the current Covid-19 epidemic. We heard that many people in Japan were being saved by this page, and we wanted to help people in Thailand too, so we started developing them. It's an effort to help people free of charge, and the Thai staff at our company were eager to prepare for it. This page is limited to those who are troubled by the damage caused by the epidemic of Covid-19, and there is a rule that the goods are offered at a low price, but the sale and purchase can be done directly by the seller and the buyer, and the listing and registration of the goods are all free. Producers and businesses looking for a place to sell, as well as consumers who want to help sellers by buying cheap goods, should use the page.

The Facebook page "Support Thailand for Covid-19" can be found at the following URL and will be operated free of charge until the damage is stabilized.
